

Portrait Adapter for Projector Frames

Datasheet

Key-Facts:

- ▶ Accessory for secure portrait & face down mounting of projectors
- ▶ easily adaptable for different frames
- ▶ DGUV V17 verified
- ▶ Lightweight design for easy installation
- ▶ Seamless integration with EVO-LINK

With the Portrait Adapters (PORAD and PORAD-XL), converting your projector from landscape to portrait orientation is quick and straightforward. Simply attach the adapter to your projector frame using rigging clamps, then mount the system onto a truss using, for example, an EVO-LINK.

The PORAD-XL version is designed for larger frames and is also available in a 40 mm variant, making it compatible with frames featuring a 40 mm tube diameter.
