DISPLAY DESIGNSTAND : FSD-5001
Preliminary Infosheet

Key-Facts

▶ Quick and tool-free setup without stacking parts
▶ Innovative twist and lock mechanism on groundplate
▶ Splitable column
▶ Seamless height adjustment
▶ Screen in landscape or portrait mode
▶ Linear height scale on the back of the column
▶ Full flexible internal cable guiding

Twist and lock mechanism

The new Designstand FSD-5001 is the ultimate installation and rental product for displays up to 86". The splitable column enables ideal packaging, so that transportation costs are reduced to a minimum.
To preserve the clean and elegant look even at a high usage rate, the groundplate was covered with a special robust coating that lives up to the highest expectations of the rental life.
The fully flexible internal cable guidance enables an installation at any available height position. You can have the cable exactly there, where you need it. This applies to the display as well, thanks to the seamless height adjustment feature of the Designstand. The quick and tool-free set-up comes in handy in any situation, but the innovative twist and lock mechanism on the ground plate makes this Designstand especially attractive, for both practical but also novelty enthusiasts.
